

## **Pet Rock**

“The most exciting pet out there!”

925 Camino De La Reina

San Diego, CA 92108

(619) 299-5072

# **Geologist Researcher**

**19nd January 2019**

### **Job Overview**

Location: San Diego, CA

Reports To: Lucia Alvarez - Malo and Nayeli Ruiz

### **General Job Description**

As a Geologist Researcher your job is to study the composition, structure, and other physical attributes of our rocks to ensure their quality to our customers and provide a second opinion regarding the best care for them.

### **Duties & Responsibilities**

You will work directly under Quality Control Director to provide your second opinion on the quality of our pet rocks

- Understand all the different types of rocks and provide your opinion on how to best take care of them
- Brainstorm names for the rocks that work as puns
- Research the best places to find good pet rocks
- Ensure the quality and duration of our pet rocks to keep our customers satisfied

### **Qualifications**

- Pursuing a Bachelor's Degree preferably in Geology or Environmental Sciences

- GPA 3.0 and above
- Knowledge of rocks
- Enthusiasm for rocks
- Must be an HBSA and ULSA paid member
- Additional Documents: Resume, Cover Letter, LinkedIn
